The boys of Lonisville have gotten up a new sport, copied from the exploits of bloody Monday. One of the crowd would agree to act the with the cry, "Move him, move him." A foot race, and then a senfile with the crowd. After a kicking and cuffing, the cry would be raised, "Now take him to jail," when several little Knew-Nothings would conduct the worried Sag-Nicht to the place of imprisonment; after which they

would return and repeat the experiment. This is about the most significant and truthful what they had seen. But one part was omittedthey ought to have had one to swear lustily that lads, however, were not sophisticated enough to act | ferod very much. such a mendacious share. They were true to na-

thousand of the old troop is in this city, and they lo not want to give in to the plan of Gen. Alvarez, They are supported by the clergy. If one falls, both must fall. Gen. G. de la Vega resigned as ommander-in-chief, in consequence of Alvare ordering him to send the late Ministers of Santa Anna to him to be tried for their robberies and scenes intended to inculcate the lesson of hopeful- misconduct. After some few hours consultation (and throwing inkstands at each other) with the leading officers of the army, it was settled, and he took the command again. Gen. Minion resigned as military Governor of the city, and has gone to Cuernavaca to see Alvarez, and to attend the meeting of the Commissioners from the This basket contains some pretty large chips, various States to elect a President Interino, on the intermingled with smaller ones. Alvarez, 16; Commonfort, 3; Milehor Ocampo, 3; Vidauri, 1. It was fully expected that Alvarez would not accept the office, but name Commonfort, as. Alvarez is a very homely and plainly educated man; but his friends considered his name of very great value to the liberal cause, and prevailed on him to accept the nomination. Immediately after his election he named Milehor Ocampo to form a cabinet, which consists of M. Ocampo, Minister of Relations; Commonfort, Minister of War and commander of the forces.

Mileher Ocampo to form a cabinet, which consists of M. Ocampo, Minister of Relations; Commonfort, Minister of War and commander of the forces; Guelermo Orete, Minister of Finance; Beneito Juarca, Minister of Justice. They are all honost, liberal, and talented men, and much approved of by the majority.

On the 7th, Gen. R. G. de la Vega gave over the command to Gorera Conde, as Governor of the city, &c. On the 9th, at twelve o'clock, Gen. Alvarcz was proclaimed Tresident, in the streets, by the notary public, the corporation of the city, about ten bands of music, and three thousands soldiers, the firing of cannon, ringing of bells, and the ricus of the populace. The evening was very wet, but there was a dispiay of rockets in the place square. The military men look a little down, and do not seem to like the change. It was fully expected, until the last day, that the army, which amounts to twelve thousand in the city, would make some resistance; but they took a second thought, as they know old Alvarcz says only a few words, but acts very decidedly, and they did not like to risk their lives. Milchor Ocampo is a decided enemy to the abandoned and prophiyate elergy, and no doubt will make a great pity this country of ten months spring out of twelve should be governed as it is. No doubt the time is come for a radical change. If so, foreigners will flock in very fast, and it would soon be a paradise.

The revolution newspapers have some very strong but true articles against the elergy. They ageues the true articles against the e

paradise.

The revolution newspapers have some very strong but true articles against the elergy. They age use them of everything that is bad, and contrary to the character of good and religious clergymen. The liberal party state their opinions too soon and too strong, as they are not yet seated firm at the head of affairs, and it may cause a reaction.

Gen. Alvarez, in his proclamation, tells the soldiers, all that wish may retire from the ranks, go to their homes, and follow their industry. Also, the Minister of War commenced, the day after he took hisoflice, to send some of the battalions from the eity to distant parts of the republic. No doubt very soon a great reform will begin to take the efficers. Gen. Santa Anna gave twelve thousand military commissions during his reign. The day Santa Anna left this city, the and thirty-six, according to the muster-rolls. No doubt there were only half of that number, and the money to maintain the other-half was put into the pockets of the officers. In the few days that Commonfort has been Minister of War he head strong the more to the market, were destroyed. Not an article was saved from the burning building. Gen. Alvarez will visit Mexico as soon as he can geteloth clothing made for his army, which amounts to seven thousand men. The American Minister was the first of all the foreign ministers to go to Cuernavaca to pay his congratulations. The address delivered by him has given very great satisfaction to the liberal party. He congratulates them upon having put down tyranny, and that the movement sprung from the south, the spot where liberty was crushed by the death of the immortal Guerrero; and that the Mexicans have shown themselves worthy of confidence and liberty, and offered friendship and unity between the two repatitions. The answer of Alvarez was very enthundled to the first of the movement sprung from the fourth story; recovery doubtful.

The man who was tonding the picker rushed into the adjoining room and seized a pail of water, before he gave the alarm, with the idea, probably, that he could stop the progress of the dames. They, however, spread like wildfire, and communicated to the stairway (tho only one in the building,) leading to the upper stories. So rapidly the flames spread, that before the alarm was fairly given, the only means of egress was cut off, and the operatives in the factory, of whom there were between eighty and one hundred, had but one alternative—either to jump from the windows or to be burned to death.

What is the Use

Of any one paying a high price for an article when the same thing can be had for a less price, and at the same time as good in every respect, (and letter in some), as he high priced "article." Carpenter & Swymmer make 'Ambrotypee" for \$2 that will compare with the best in the city. For brilliance of tone and finish, they are no equalled. Another great item is, they are put up with only one glass, so that you need not have your pockets double lined to ensure its safety, if you should wish to carry it three squares. The double glass is of itself nothing; it adds no beanty to the picture-makes it none the less liable to damage, and is only a feeble brea work for a weak enemy.

Why Females Suffer in Health.

THE MARRIED WOMAN'S Private Medical Companion, BY DR. A. M. MAURICEAU,

PROPESSOR OF DISEASES OF WOMEN. One Hundreth Edition (500,000) 18me., pp. 250. standard work of established reputation, found class ed in the catalogues of the great Trade Sales of New York, Philadelphia, and other cities, and sold by

the principal booksellers in the United States. Every woman can here discover, by comparing her own symptoms with those described, the nature, character, and cause of her complaint, and be spared much anxiety and suffering, as well as the unpleasantness of making known to, or making inquiry of, a physician in respect to the numberless silments to which she is subject. The wife about becoming a mother has often Carpeting, Floor Oilcloth, and need of instruction and advice in respect to her situa-tion, which she will here find. This book tells her what is the matter, and tells her what to do for it, in simple

but chaste words, and such as she can understand. Those suffering from obstructions or irregularities peculiar to the female system, or from prolapsus uteri (falling of the womb,) or from fuer albus, will each find in its pages the means of prevention, amelioration, and

Much distress of mind, as well as thousands pecunlarily, might be saved to every husband, if the simplest laws appertaining to the marriage state were better nnderstood. That they are better understood is traceable to that natural and almost commendable sensitiveness that will rather suffer than consult or converse with even a medical man in respect to complaints peculiar to

Philadelphia, spoken of in the highest terms of commendation, and we honestly believe that it is one of the best medicines advertised for the complaints for which is recommended. They are pleasant to the taste, and can be taken under any circumstances by the most delicate stomach. The press far and wide have united in commending this invaluable remedy for dyspepsia, debility, &c., and such are the healing effects of this panacea that we hope it may be introduced to every family dyspepsia has, or is likely to have, a victim.

Her ength is 150 feet, 3) feet beam, 5 feet hold. She has two boilers 26 feet long, 40 inches ln diameter; 2 cylin ders, le inches in diameter: 5 feet stroke. The hull was built by T.S. She will berth about 30 passengers, and is neatly fur

Her draught is only is inches, but she is a strongly ullt craft, and will carry 1,400 bales cotton. Take her all in all, she is one of the best boats turned out from his place for a long time. She is in charge of compe tent men and agreeable officers-Captain Gid Witham on deck, Col. and Charley Hayes In the office, and another Hayes at the engine. The Swan leaves for New Orleans on Saturday, and

our shippers should give her a full trip, and the cby enonrage boat building in our city. She is receiving reight to-day. FOR NASHVILLE.-The fine stern-wheeler Eclipse,

leaves this morning for Nashville, affording travelers a fine opportunity of going up Cumberland river. She is very light and will through without difficulty. FOR ST. LOUIS .- The splendid passenger steam Highflyer, leaves as above this morning at 12 o'clock.-Captain Tom Wright, and the chief clerk, Mr. W. P. olliday, are too well known to need any commend from ns. It is sufficient to say they are the most popul

ar officers in the trade. For Memphis .- The splendid steamer Sallie West, eaves for Memphis from Portland. She is a fine craft, and her officers are gentlemen of the first water. The D. A. Given will positively leave this mor ng at 12 o'clock for Memphis, from the city wharf.

FOR WHEELING .- The fine steamer Altament, Capt

Johnson, is the packet for the above port to-day. The Jacob Poe is due from Pittsburg to-day. Reports from above are very contradictory about he stage of the river, some saying by and rising, thers five and four feet. We hope to hear something

definite this morning. For St. Louis .- The splendid passenger steam Baltimore, leaves for St. Louis this morning at 12 o'clock. With Captain List and clerk McBride, passengers cannot but be made comfortable; but, if that is not sufficient, Mr. Selfe, who presides on the starboard gnard, will furnish everything to refresh the Inner man, besides adding his smiling countenance, to lend en-

hantment to the scene. The fine steamer Moses McLellan is the regula packet at noon this day for Cincinnati. The neat little Belle Quigley is the regular pack at noon, for Madison and Carrolton.

The splendid steamer Rainbow is the packet thi afternoon at 3 o'clock, for Evansville and Henderson Go on board in time if you wish to travel comfortably. We clip the following from the Cinciunati Com

The Illinois river is in good poating stage. The Upper Alissispip was falling at the last accounts, and the Missouri is getting more difficult to navigate. Receipts from the Upper Missispip and Illinoisrivers were liberal yesterday, particularly from the latter. Business on the levee was continually interrupted by showers of rain.

CAUTION. THE GREAT CELEBrity which my Eau Instrale liair Restorative has acquired in Philadelphia and throughout the United States, and the great demand that I have for the article, have prompted some un principled persons to get up an article in the same name, and in every outward appearance perfectly similar. The label is a perfect fac simile of my own. The subscriber would be above noticing such baseness, but is obliged to do so to put his enstowers upon their anard, as the whole style of the article is well calculated to decive. Be careful to foot that the name of Jules Hanel be on the label.

Both Trains connect at Chicago with all moraling and evening Trains for the West and Northwest. Also, at Michigan City with the Trains on the Michigan Ceutral Railroad for Detroit, Buffalo, Niagara Falls, Albany, New York, Boston, &c. This is by far the most pleasant and interesting route to the East, passing as it does through the most flourishing and the largest towns and eities in Indiana, such as New Albany, Salem, Orleans, Bedford, Bloomington, Greencastle, Crawfordsville, Laquette, and Michigan City, on Lake Michigan; Tippecanos Battlo Ground, a spot hallowed in the heart of every American citizen, is also seen by those passing over this ronte.

From Michigan City the route passes through the most delightful and flourishing part of Michigan to Detroit. Thence crossing the Betreit river, and passing through the most interesting portions of Upper Canada, inclinding the Thames Battle Ground, London, Paris, Ilamitton, &c., in view of Lake Untario, to the Great Niagara Enspension Bridge, a work more stonger down more wonderful, and more to be admired, than any other similar work of art in the world. In crossing this bridge of all view is had of the great Cataract of Niemdon.
